

Creative Ways To SPRUCE UP YOUR BATHROOM

Establish a focal point with a single piece of wall art in an inspiring, tasteful design.

Give the walls a refresh with a new color or paint just one as an accent.

Hang some wallpaper accents or a peel-and-stick backsplash for a modest but noticeable change.

Modernize the lighting and other builder's grade fixtures.

Incorporate ornate mirrors, bathmats, shower curtains and other furnishings with interesting yet complementary designs.

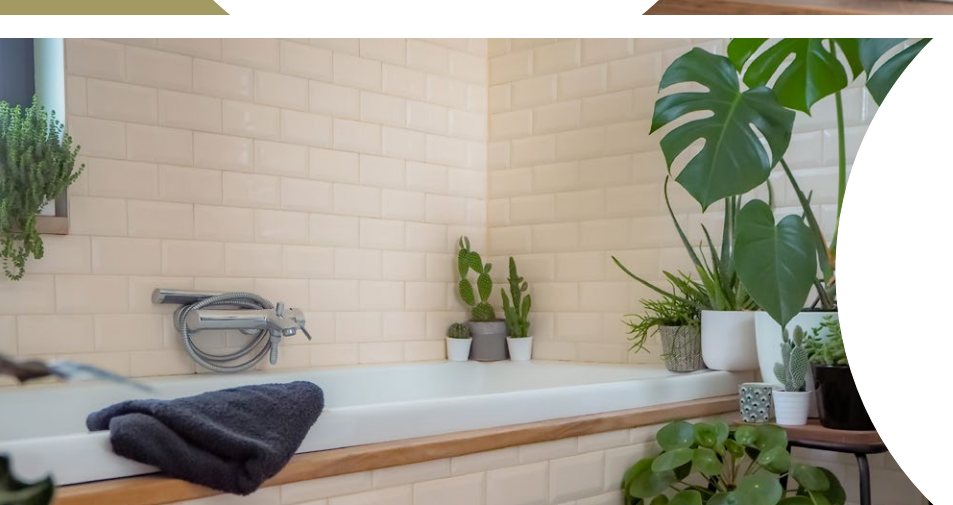

Organize toiletries and skincare products with attractive storage solutions, such as rattan baskets or floating shelves.

Switch out bath linens to stylish colors, patterns, etc. or introduce a pair of new decorative hand towels if on a budget.

Update the water faucet, toilet handle and other hardware with a matching finish.

Enliven the space naturally with greenery if there's a window or faux monstera leaves or palm fronds if windowless.

Make use of multiple mirrors to create a larger sense of space in a smaller bathroom.
